

ASPECT® v3.06.00

Summary

ASPECT software has been updated to add Security updates, **Scalable Graphics**, and e-signature LDAP integration, along with general usability improvements and to clean up localization.

Features

ENHANCEMENTS:

ASP-5562 Add Scalable Graphics Support to ngAdmin

ASP-5510 Add SVG image support to ASPECT-Studio.

ASP-5736 Add feature to overlay a Menu template over a Map graphic

ASP-5871 Add "clickable zoom in" option to Polygons that are placed on a **Scalable Graphic**

ASP-5872 Add "Fixed Size" feature to Graphics components on **Scalable Graphics**

ASP-5873 Add support Gesture Navigation on Mobile devices (Pinch/Spread, Tap/Double Tap...)

ASP-5711 Add new ABB Voice fonts added to Styles in **ASPECT-Studio**.

ASP-4895 Add option to modify Master Value directly without a 2nd Ghost Point as a property grabber

SECURITY:

ASP-5722 Update e-signature authentication to support **ASPECT** LDAP interface

ASP-5709 View level not respected on "Graphic to Graphic" links

ASP-5753 ngAdmin package dependencies updated to minimize security issues

ASP-5775 ngAdmin fix pack

ASP-5771 Upgrade log4j 1.2.13 to log4j 1.2.17 and mitigate outstanding CVE's CVE-2019-17571 / CVE-2021-4104

ASP-5843 Mitigate CVE-2021-4034 - Polkit/pkexec vulnerability

GENERAL USABILITY:
