

ASPECT® v3.05

Summary

ASPECT software and firmware have been updated to allow e-signatures when changing certain values, to allow for a Timed BACnet/Unitron override and to implement ABB branding.

Background

ABB branding of the ASPECT software is now complete, and while it is being released a number of updates are included.

Features

ABB Branding is now implemented in ASPECT-Studio, ASPECT-Enterprise, NEXUS Series and MATRIX Series.

Added ability to "e-signature" authorization and audit with disposition when changing values.

Added an option to allow for a Timed BACnet/Unitron override.

IMPROVEMENTS

ASP-5309 Add an option to allow for a Timed BACnet/Unitron override.

ASP-5412 Added the ability to do an "e-signature" authorization and audit with disposition when changing values in the H5 ngAdmin user interface.

ASP-5451 TLS 1.2 support for NEXUS 1, 2 and ASPECT-Enterprise has been added.

ASP-5467 Core Scaling and sending large values via diagram no longer causes decimals to be removed.

ASP-4949 ModbusInt16 value core scaling now works as expected.

ASP-5480 Sidebar collapse feature added to provide a larger area to view floorplan graphics.

ASP-5489 Enum labels have been added for AdHOC Trends Graph.

ASP-5388 Add a date filter option for Alarm console.

ASP-5315 Add ability to edit Multi Image Def filenames from the dialog window (initiate edit via [Ctrl]-[F2] / or Double Click)

ASP-5526 Dashboard now loads and renders correctly even when point group is not saved.

ASP-5507 Schedules heading is now fully visible in new UI.

ASP-5494 Saved Trends subpage: table items for selected trend no longer disappears.

ASP-5493 Notification Setup edit page and Services configuration page are no longer cropped by top bar.

ASP-5492 Text overflow now works for the favorites module on the Dashboard.

ASP-5488 User favorites are no longer overwritten after Site refresh.

ASP-5481 ngAdmin header now stays fix while scrolling the page.

ASP-5477 Click action area issue while expanding the sidebar

ASP-5476 Sidebar no longer collapses when clicked on empty area besides the collapse bar.

ASP-5470 Checkbox 'Ticks' now display correctly.

ASP-5468 **Select button**'s colour now changes to show selected/unselected and checkbox 'Ticks' now show.

ASP-5466 Deleted favorite graphics no longer shows on **ASPECT** webpage.

ASP-5457 **[Bulk]** label on audit trail items is being added to **Message** column instead of disposition.

ASP-5452 System browser breadcrumbs now reflect node display names.

ASP-5450 Audit Trails, Map events - per page drop down UI issues resolved.

ASP-5449 Historic Alarms - "Alarms Per Page" drop down UI issue resolved.

ASP-5436 All skeleton projects now reflect external navigation to ABB.com

Customer Impact

Customers are recommended to update when convenient.
