

# CXpro<sup>HD</sup> v1.02.02

Issue Date: 27 July 2020

Product: CXpro<sup>HD</sup>

Product Version: 1.02.02

## Summary

This is a patch release of the engineering software to address specific issues with **INTEGRA™** / **ASPECT®** integration, BACnet communications and language localization.

## Background

This update is part of Cylon's continuous improvement strategy, to address customer feedback.

## Features and Installation

**Note:** CXpro<sup>HD</sup> 1.02.02 is compatible with **Windows 10** Professional 64-bit and **Windows 7\*** Professional / Enterprise / Ultimate 64-bit.

*\*Windows 7 was made EOL (discontinued) by Microsoft in January 2020*

The minimum configuration to run this application is: **Core 2 Duo** E6300, 1Gb RAM, 80Gb hard drive.

The recommended configuration is: **Core 2 Duo** E6600, 2Gb RAM, 160Gb hard drive.

**Note:** Please be aware that Anti-Virus software can occasionally interfere with the installation process for **CXpro<sup>HD</sup>**, and perhaps consider disabling Anti-Virus software temporarily when installing **CXpro<sup>HD</sup>**.

## Resolved Issues

**ST-7229** Fixed issue that was preventing **CXpro<sup>HD</sup>** from being launched from **INTEGRA** and **ASPECT**.

Also updated **CEC Chooser** to launch **CXpro<sup>HD</sup>** instead of attempting to launch **CEC7** from **INTEGRA**.

**ST-7728** Changed all communication requests in BACnet Library to run asynchronously to prevent client apps from stalling while waiting for a response.

Added support for a German language version of the **Engineering Tool** when the German version of the software is installed.

## Customer Impact

Any customer affected by the specific issues detailed in this document should upgrade to this version of **CXpro<sup>HD</sup>** when practical.
